# OUR TIME TO SHINE

## 4 FOUR MUSKETEERS

### FOUR BRAVE LADS FORM A BAND

**4 Blues Brothers**, loads of experience, one common goal: to form one of the greatest combos the world has ever seen. This band's name: **CARGOWAYS**.

Our clients expect values such as experience, composure and expertise, one way or another. We, however, **deliver** more than the usual. We carry on hiring great employees. We want to make our clients happy. Whilst still having fun, doing just that. **THIS** is our tune.

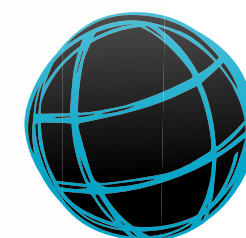

## BIG BAND

Over **50 employees** make up our ensemble on **4 stages** across Europe. Our favourite tune: the north-south axis from **England to Italy**. That's where we really get going. But that's not all: be it full, half, **express**, **ADR**, **exhibition**, **high value**, **airfreight** or at **sea** — we play them all.

**BIG-BAND:**  
Over 50 employees  
in 4 branches across  
Europe

**CARGO**WAYS  
LOGISTICS & TRANSPORT

# LOGISTICS

## DONE PROPERLY.

ANYONE CAN PULL OFF LOGISTICS,  
SOMEHOW.  
SOMETIME.

We however deliver **pronto** from A to B.  
Our **experience**, network and **state-of-the-art technology** ensure your cargo arrives safe & sound. At reasonable prices, too — **Scout's honour**.

## ALL-OUT PREMIUM.\*

\*(OUR RATES, TOO).

# HOW ABOUT THAT:

## FULL ON

### Full truckload or part load. We couldn't care less.

No matter whereabouts in Europe your needs may take you, we have daily departures from all major countries in Europe, your cargo will easily reach its destination on time — with a high chance of availability. As soon as possible. Scout's honour.

## EXPRESS CARGO

### Chop Chop! The fastest way possible.

Be it just a single pallet or a full load; we transport your cargo to its destination in a flash. Translation: Send us the booking, we'll pick it up and deliver it pronto. Easy as pie. So, don't waste any more time and ask for a quote. We won't bite.

## ADR

### Hazardous goods? Tsss — totally harmless to us.

Our fleet is well-equipped for any job in hand. We ship anything from sulphuric acid to your mother-in-law. We are your competent and dependable partner when it comes to almost all ADR categories. We have our very own in-house DGSA, who is extremely knowledgeable in this area so now no one can pull your leg.

## EXHIBITION & PROJECT LOGISTICS

### No sweat!

Have an exhibition date? Super complicated project? Its business as usual for our cargo pros. If you want to size us up with a fare? Fair enough, give us a go! Reliability is our middle name. CARGO — reliability — WAYS. There you go.

## HIGH VALUE

### When it's do or die. Or even more.

Highly sensitive technology? Super-duper expensive special cargo? We'll take care of it. All it takes is a simple ask. GPS monitoring? Geo-fencing? Fancy white gloves? We have it all, no matter how sensitive your gadgets or goods. Up until now, our transport managers have rescued all unicorns & mermaids back to their habitats, safe & sound.

## GPS

### Always involved — thanks to online tracking.

We know customers like to be kept involved along the way of their shipments, that is why you can check on all collection and delivery statuses at the drop of a hat. With our super-duper online tracking system, you can retrieve GPS data for collections and deliveries. Does it all sound so easy-peasy-lemon-squeezy? That's because it is.

## AIR CARGO

### Because we love to fly.

Sometimes, our clients blow their tops. If road or sea isn't fast enough, our transport gurus will gladly organise air cargo for you. Your stress and anger, however, will be forced to stay grounded. Should need be, we will even swing into the Frank Sinatra classic so you can "come fly with us". At your own risk, that is.

## SEA FREIGHT

### Ship ahoy and all that.

Sea freight is no problem for our cargo skippers. Individual combinations of sea, air and land routes allow us to get your cargo from A to Z and every letter in-between, lickety-split. Whatever it is you need, it's always full speed ahead.
